

2001 Cessna Citation Excel

MSN # 5217

Airframe-Enrolled in ProParts

Only 4,467 Hours Since New!

3449 Landings

Engines: Pratt and Whitney 545A

Only 4,467 Hours total time with Hi-Speed Turbine Blades!

APU: RE 100XL with

Avionics-BRAND NEW (10/20) Garmin G5000 Avionic deck!

The new G5000 integrated avionics suite modernizes the cockpit, significantly reduces operational costs, addresses airspace modernization requirements, and solves long-term concerns related to parts obsolescence.

The G5000 integrated flight deck for the Citation Excel features three landscape-oriented flight displays with split-screen capability, allowing pilots to simultaneously view maps, charts, checklists, TAWS, TCAS, flight plan information, weather and more. Electronic charts and Garmin SafeTaxi airport diagrams are geo-referenced and can be viewed across all three displays. Intuitive touchscreen controllers serve as the pilot interface to the flight deck and contribute to the ease of operation and seamless transition between various pages.

It also includes a fully digital Automatic Flight Control System (AFCS), offering precise performance throughout the aircraft's flight envelope. New to the Citation Excel, Emergency Descent Mode (EDM) is available as a standard feature with the G5000 and is enabled by the autopilot in the event of a loss in aircraft pressurization.

The installation incorporates engine instrumentation and master warning system annunciation. This upgrade provides a fully integrated Automatic Dependent Surveillance-Broadcast (ADS-B) Out solution. Operators also gain access to more airports, and lower approach minimums throughout the world as the G5000 has PBN/RNP 0.3 with LPV/APV approach capability.
